Professional Summary

Certified React Developer and UI/UX Designer with expertise in creating responsive, user-centric web applications. Proven ability to bridge design and development, delivering intuitive interfaces built with modern technologies. Strong foundation in front-end development with React.js, JavaScript, HTML, and CSS, complemented by design thinking and prototyping skills. Known for clear communication, creative problem-solving, and translating user feedback into improved design solutions.

Technical Skills

- Front-End Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design, Single Page Applications
- UI/UX Design:** User Interface Design, User Experience Design, Wireframing, Prototyping, Visual Design Systems, User Journey Mapping
- Design & Development Tools:** Figma, Adobe XD, Git, Version Control, Web Interface Design
- Core Competencies:** Cross-functional Collaboration, Agile Development, Problem Solving, Design-to-Code Translation, Performance Optimization

Certifications

- Certified React Developer (2024)
- Fundamentals of UI/UX Design (2024)

Projects

E-Commerce Platform Interface | React, CSS3, JavaScript, Responsive Design (2024)

- Designed and developed a fully responsive e-commerce web application with intuitive navigation and a seamless checkout flow, improving user engagement by implementing modern UI patterns.
- Built reusable React components following best practices, reducing code redundancy by 40% and improving maintainability.
- Implemented dynamic product filtering and search functionality with optimized performance for enhanced user experience.
- Created comprehensive wireframes and high-fidelity prototypes to validate user flows before development.

Portfolio Website & Design System | React, HTML5, CSS3, UI Design (2024)

- Developed a personal portfolio website showcasing projects with smooth animations and modern design principles.
- Established a cohesive design system with reusable components, ensuring consistency across all pages.
- Optimized website performance achieving 95+ Lighthouse scores for accessibility and performance.
- Implemented responsive design ensuring seamless experience across desktop, tablet, and mobile devices.

Task Management Dashboard | React, JavaScript, State Management, UX Design (2023)

- Created an interactive task management application with drag-and-drop functionality and real-time updates.
- Designed a user-friendly interface with clear visual hierarchy and intuitive controls based on user research.
- Implemented local storage for data persistence and state management using React hooks.
- Conducted usability testing and incorporated feedback to refine user flows and interface elements.

Education

St. Martin's Engineering College — Hyderabad, India

Bachelor of Technology in Computer Science (Sep 2023 — Apr 2027)

- Relevant Coursework: Data Structures, Web Technologies, Software Engineering, Database Management
- Active participation in coding clubs and technical workshops focused on web development

Key Strengths

- **Design-Development Integration:** Seamlessly translate design concepts into functional code while maintaining design fidelity and user experience quality.
- **User-Centric Approach:** Strong focus on creating intuitive interfaces that prioritize user needs and accessibility standards.
- **Rapid Learning:** Quick to adapt to new technologies, frameworks, and design trends with a growth mindset.
- **Communication:** Excellent at articulating technical concepts to non-technical stakeholders and incorporating feedback iteratively.
